**Brake Horsepower Required:**

0.333

**Stage Quantity:**

2

**Intake Connection Quantity:**

1

**Discharge Connection Quantity:**

1

**Furnished Items:**

Electric power cable and inlet filter and quantity sight gage

**Overall Length:**

15.500 inches

**Overall Height:**

9.750 inches

**Overall Width:**

5.625 inches

**Current Type:**

Ac

**Cooling Medium:**

Oil

**Pump Quantity:**

1

**Pump Body Material:**

Aluminum alloy

**Pumping Element Type:**

Sliding vane

**Vapor Condensation Preventative Device:**

Gas ballast valving

**Air Displacement Rate:**

4.0 cubic feet per minute in free air

**Minimum Operating Temp:**

32.0 degrees fahrenheit

**System Design:**

Noncorrosive

**Prime Mover Type:**

Electric motor

**Current Rating In Amps:**

2.2

**Features Provided:**

Lockout for checking refrigerant leaks

**Voltage In Volts:**

115.0

**Phase:**

Single

**Special Features:**

Offset rotary vane design

**Frequency In Hertz:**

60.0

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A06700
