Compressor Quantity:

1

Duty Cycle In Percent:

100

Gas For Which Designed:

Air

Discharge Flow Rate:

13.100 cubic feet per minute

Discharge Pressure:

5000.000 pounds per square inch gage

Cooling System Design:

Single

Compressed Gas Cooling Medium:

Air

Compressor Cooling Medium:

Air

Prime Mover Cooling Medium:

Fresh water

Mounting Type:

Base

Prime Mover Type:

Gasoline engine

Brake Power Required:

14.0 horsepower

Special Features:

Breathable air

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A026a0
