Body Diameter:

3.906 inches

Tempurature Rating:

150.0 degrees fahrenheit

Special Features:

Removes 99.9 percent of oil mist over their operating range, filter is .01 micron with automatic drain and integral differential pressure indicator, shows at a glance if pressure differential is within specific limits, metat bowl with pyrex sight glass, 10-15/3 inch height, inlet pressure 2250 psi

Material:

Metal body

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A24000
