Overall Width:

25.000 inches

Body Thickness:

1.000 inches

End Application:

Navy weapons code th, strategic sealift conversion ships class

Design Type:

Nonreusable

Temperature Rating:

200.0 degrees fahrenheit

Bodylength:

25.000 inches

Filtering Media Design:

Pleated single filtering media response

Special Features:

Actual dimensions are 24-3/4 x 24-3/4 x 7/8

Material:

Plastic styrene filtering medium

Surface Treatment:

Zinc screening

Style Designator:

Rectangular (incl square)

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A24000
