Compressor Quantity:

1

Special Features:

Pressure/vacuum head configuration; .300 in. Strokes; 6.9 bar maximum continuous and intermittent pressure; flow at 12v vacuum; 833 mbar maximum vacuum; 40deg c maximum ambient air temp; 6.9 bar restart pressure; 833 mbar restart vacuum; 12 vdc; 1/10 horsepower; current atrated load: 10.2; 3846 rpm at full load speed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A026a0
