Mounting Type:

Base

Stage Quantity:

2

Intake Connection Quantity:

1

Intake Connection Type:

Flared tube

Overall Length:

10.500 inches

Overall Height:

9.200 inches

Overall Width:

5.100 inches

Pump Quantity:

1

Pump Body Material:

Iron, cast

Operating Speed At Rated Capacity In Rpm:

1725.0

Air Displacement Rate:

1.5 cubic feet per minute in free air

Prime Mover Type:

Electric motor

Safety Device Type:

Overload relay

Voltage In Volts:

230.0

Special Features:

Name assigned by manufacturer yellow jacket superevac pump 1.5 cfm

Frequency In Hertz:

50.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A06700
