Width:

1.970 inches

End Application:

Filter, air f72g-2an-aw3

Filter Type:

Dry

Outlet Location:

Top left side

Inlet Type:

Sleeve

Sleeve Location:

Right side top

Sleeve Connection Quantity:

1

Outlet Type:

Sleeve

Product Name:

(inavy)filter, air

Special Features:

Connection size: 0.125-27, , 0.125-28, ; thread type: pipe; automatic drain: close when the system is proessurized, open when the float rises due to accumulated liquid and on depressurization; operating temperature: m34 to 50 degrees celsius; pressure: 150 psig

Material:

Plastic and zinc and rubber, neoprene

Material:

Plastic and zinc and rubber chloroprene class cr

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T135-d
