Special Features:

Metallic air operated double diaphragm 1 inch pump, center body is aluminum, seat material is stainless steel 316, ball material is stainless steel, diaphragm material is tfe (polytetrafluoroethylene), maxmaterial inlet pressure is 10 psi, maxflow rate is 35 gpm, maximum outlet pressure is 120 psi

Material:

Aluminum and steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A540a0
