End Application:

Brat b511-100 air data test set system

Unpackaged Unit Weight:

195.000 pounds

Criticality Code Justification:

Agav

Special Features:

Compressor/vacuum pump chassis assembly houses two vacuum pumps, a compressor, and a filter/regulator

Functional Description:

Provides constant sources of both pressure and vacuum for the air data test set

Reference Data And Literature:

To 33d7-3-436-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli
