Cylinder Arrangement Style:

Horizontal design

Stage Quantity:

2

Intake Connection Quantity:

1

Vacuum Rating:

10.0 microtorr

Pump Body Material:

Aluminum alloy

Pumping Element Type:

Any acceptable

System Design:

Noncorrosive

Product Name:

Vacuum pump

Special Features:

Motor size: (hp rpm @ 50/60 hz; 1/2 (hp) 2880/3440, dimensions: 13.1 x 5.5 x 10.0 inches, weight: 22 lbs, operating temp range: 32 degree f to 125 degree f, power source: 220-240 v (50/60hz), oil capacity: 15.5 oz, overload protection, dual voltage units have extra iec fuse.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A06700
