Pump Design Control Activity:

16712

Special Features:

O/a lg 12.000 in.; od of flange first end 9.505 in.; flange lg 0.625 in.; od flange other end 8.997 in.; flange lg 2.625 in.; 4.004 in. Larger id diminished to 2.404 in. Smaller id on two sides; one o-ring groove on other end; first end contains one 0.375 in. Drilled through hole and two 0.750-10 unc thd holes

Material:

Copper alloy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A501z0
