Body Material:

Steel

Flange Outside Diameter:

7.500 inches

Flange Shape:

Round

Flange Bolt Hole Diameter:

0.875 inches

End Connection Type:

Flanged

Size:

2.500 inches

Pressure Type:

Constant

Inlet Working Pressure Rating At Maximum Temp:

600 psi rated steam wp at 700 degrees f

Saturated Steam Capacity Rating:

13500.0 pounds per hour

Angle Body Feature:

Not included

End Connection Similarity:

Identical

Pipe/tube Size:

2-1/2 in. Pipe

Flange Raised Face Feature:

Included

Flange Bolt Hole Quantity:

8

Flange Bolt Hole Spacing:

Equally spaced on 5-7/8 in. Diameter bolt circle

Actuating Fluid Pressure Range:

+350.0 to 1150.0 pounds per square inch

Specification Or Standard:

Cp type and 1 class and 600 series and 2-1/2 size

Departure From Cited Document:

As modified by pac axag

Reference Number Differentiating Characteristics:

As differentiated in reply to pac axae

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T103-d
