Body Material:

Steel

Flange Outside Diameter:

5.250 inches

Flange Shape:

Round

Flange Bolt Hole Diameter:

0.750 inches

End Connection Type:

Flanged

Size:

1.250 inches

Pressure Type:

Constant

Inlet Working Pressure Rating At Maximum Temp:

600 psi rated steam wp at 700 degrees f

Angle Body Feature:

Not included

End Connection Similarity:

Identical

Pipe/tube Size:

1-1/4 in. Pipe

Flange Raised Face Feature:

Included

Flange Bolt Hole Quantity:

4

Flange Bolt Hole Spacing:

Equally spaced on 3-7/8 in. Diameter bolt circle

Actuating Fluid Pressure Range:

+50.0 to 175.0 pounds per square inch

Specification Or Standard:

Cp type and 1 class and 600 series and 1 size

Departure From Cited Designator:

As modified by pac axag

Reference Number Differentiating Characteristics:

As differentiated in reply to pac axae

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T103-d
