Centrifugal Pump Subassembly - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4320-00-070-8719

Major Components:

Shelf Life:
seal; 60 cycle impeller, motor: 215c totally enclosed frame (tefc); 7-1/2 h.P.; 3600 rpm; 208/220/440v, 3ph, 4 wire, 60 cps
construction-close-coupled centrifugal pump in all bronze construction complete with bronze shaft sleeve and john crane no.21 mechanical
Consisting of: pump: model-gbha size 1-1/4 in.Discharge into the 1-1/2 in.Suction; 7 in.Impeller will meet 75 gpm at 80 psi;

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:
