Maximum Operating Pressure:

3000.0 pounds per square inch

Mounting Type:

Cabinet

Pump Quantity:

1

End Application:

F-111 aircraft/TF-30 engine

Portability:

Portable

Pump Type:

Reciprocating

Hydraulic Fluid Reservoir:

Included

Accumulator:

Not included

Fluid Filter:

Included

Fluid Filter Type:

Pressure

Manifolding Hose Set:

Included

Outlet Quantity:

2

Special Features:

Pump unit provides means to position the engine air inlet spike and cone angle during aircraft/engine maint.

Reference Data And Literature:

T.O.1f-111a-4-18, 1f-11 (b) a-2-1

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T103-n
