Maximum Discharge Flow Rate:

10500.0 gallons per minute

Pumping Element Operating Position:

Vertical

Special Features:

20.000 in. Intake connection, 18.000 in. Discharge connection

Reference Number Differentiating Characteristics:

As differentiated by discharge flow rate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19400
