**Intake Connection Quantity:**

1

**Discharge Connection Quantity:**

1

**Media For Which Designed:**

Hydrocarbon fuels and oils

**Rotary Pump Design:**

Gear

**Operation Method:**

Powered

**Special Features:**

Consists of two pumps w/a maximum discharge flow rate of 48-12gpm, discharge pressure 82 psi, total operating speed at rated capacity of 1330 rpm; 1-1/8 in. Diameter opening flanged inlet connection; 1.7525 in. Diameter opening flanged outeled connection

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A19400
