Intake Connection Quantity:
1
Discharge Connection Quantity:
1
Media For Which Designed:
Hydrocarbon fuels and oils
Rotary Pump Design:
Gear
Operation Method:
Powered
Special Features:
Consists of two pumps w/a maximum discharge flow rate of 48-12gpm, discharge pressure 82 psi, total operating speed at rated capacity of
1330 rpm; 1-1/8 in. Diameter opening flanged inlet connection; 1.7525 in. Diameter opening flanged outeled connection
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A19400
