Intake Connection Quantity:

1

Discharge Connection Quantity:

1

Media For Which Designed:

Hydrocarbon fuels and oils

Rotary Pump Design:

Gear

Operation Method:

Powered

Special Features:

Consists of two pumps w/a maximum discharge flow rate of 48-12gpm, discharge pressure 82 psi, total operating speed at rated capacity of 1330 rpm; 1-1/8 in. Diameter opening flanged inlet connection; 1.7525 in. Diameter opening flanged outeled connection

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A19400
