Intake Connection Quantity:

1

Discharge Connection Quantity:

1

Drive Connection Type:

Gear

Media For Which Designed:

Hydrocarbon fuels and oils

Operating Speed At Rated Capacity:

800.0 revolutions per minute

Pumping Element Operating Position:

Horizontal

Volume Control Type:

Rotary

Rotary Pump Design:

Gear

Operation Method:

Powered

Drive Shaft Type:

Key type, internal

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19400
