**Special Features:**

40/0 psi discharge pressure; 3800.0 rpms operating speed at rated cap, hydrocarbon fuels and oils media for which designed pumping element operates horizontal clock-size, single action 3 cylinders, piston type pumping element, variable reciprocating stroke, hydraulic cylinder type volume control, left side, internally thd intake connection, 0.438-20 npt thread, 1 internally thd discharge connection, 0.438-20 npt thd; mhu-196; mhu-204

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

A19400
