Media For Which Designed:

Hydrocarbon fuels and oils

Pumping Element Type:

Piston

End Application:

3950-01-152-6720

Operating Speed At Rated Capacity:

3200.0 revolutions per minute

Pumping Element Operating Position:

Horizontal

Operation Method:

Powered

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A19400
