**General Description:**

Fully split water lubricated stern shaft seal{ for inspection and repair a inflatable seal is provided{ operating air pressure 25 psi{ maximum air pressure 150 psi{ seal is seawater cooled flow rate 15 gpm{ maximum water pressure 30 psi{ normal operating water 20 psi{ seal length 18.543 in nom major diameter 37.375 in nom shaft diameter 20.125 in nom{ mounting method 16 unthreaded equally spaced 1.000 in diameter holes 35.500 in bolt hole circle{ reference dwg us 43170{ used on propulsion shaft on 378 ft whec uscg vessels

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

Yes - demil/mli

**Fig:**

A23900
