Centrifugal Pump - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/4320-01-256-8562

Mounting Type:
Flange
Stage Quantity:
1
Intake Connection Quantity:
1
Intake Connection Type:
Round flange
Discharge Connection Quantity:
1
Discharge Connection Type:
Round flange
Maximum Discharge Flow Rate:
3500.0 gallons per minute
Operating Speed At Rated Capacity:
900.0 revolutions per minute
•
Pumping Element Operating Position:
·
Pumping Element Operating Position:
Pumping Element Operating Position: Vertical
Pumping Element Operating Position: Vertical Pump Rotation Direction:
Pumping Element Operating Position: Vertical Pump Rotation Direction: Counterclockwise
Pumping Element Operating Position: Vertical Pump Rotation Direction: Counterclockwise Shelf Life:
Pumping Element Operating Position: Vertical Pump Rotation Direction: Counterclockwise Shelf Life: N/a
Pumping Element Operating Position: Vertical Pump Rotation Direction: Counterclockwise Shelf Life: N/a Unit Of Measure:
Pumping Element Operating Position: Vertical Pump Rotation Direction: Counterclockwise Shelf Life: N/a Unit Of Measure:
Pumping Element Operating Position: Vertical Pump Rotation Direction: Counterclockwise Shelf Life: N/a Unit Of Measure: Demilitarization:
Pumping Element Operating Position: Vertical Pump Rotation Direction: Counterclockwise Shelf Life: N/a Unit Of Measure: Demilitarization: No
