Maximum Operating Pressure:

5000.0 pounds per square inch

End Application:

C-17 afct maintenance

Inlet Connection Quantity:

1

Outlet Connection Quantity:

1

Operating Speed Quantity:

1

Hose:

Included

Err Default:

Err default

Special Features:

Reservoir capacity: 2 gallons; fluid: per mil-l-7808; disconnect: quick disconnect coupling half; wt: 26 lbs empty, 41 lbs w/fluid; finish: nickle coated; recorded in mil-hdbk-300

Functional Description:

Drives actuators for pratt and whitney f117-pw-100 engine fan thrust reverser duct doors

Relationship To Similar Equipment:

Mcdonnel douglas p/n 55543, which is used on the kc-10 afct, but varies in the quick disconnect and relief valve setting

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T103-b
