Drive Connection Type:

Cam

End Application:

Ltv aerospace and defense, am general division, hmwv-military contract vehicles, 6.2l engine

Pumping Element Operating Position:

Horizontal

Rotary Pump Design:

Cam and piston

Operation Method:

Powered

Special Features:

Used with model db2829-4847 injection pump

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A19400
