Maximum Operating Pressure:

900.0 pounds per square inch and 925.0 pounds per square inch

End Application:

Ac-130u tgms/ashs

Operating Speed Quantity:

1

Hose:

Not included

Supplementary Features:

Materials: mil-std-889; shaft speed: 300 rpm max; input torque: not to exceed 50 lb/in in each direction; outlet pressure: 800/825 psig; inlet pressure: 3/5 psig; outlet flow: 30/40 cu/in per min; alternate case drain port and case drain port: ms33649-4; port 1 and 2: per ms33649-6

Fsc Application Data:

Fixed displacement hand operated pump, manual, hydraulic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T103-b
