Cylinder Quantity:

2

Media For Which Designed:

Hydrocarbon fuels and oils

Pumping Element Type:

Diaphragm

End Application:

3825-01-314-2926

Pump Reciprocating Design:

Single acting

Volume Control Type:

Pressure compensation

Operation Method:

Powered

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19400
