Drive Connection Type:

Rigid coupled

Media For Which Designed:

Oil

End Application:

Refrigeration compressor, vilter manufacturing corporation, model 440 series

Pump Rotation Direction:

Clockwise and counterclockwise

Rotary Pump Design:

Gear

Operation Method:

Powered

Special Features:

Oil pump for lubrication of a compressor; includes an oil failure switch which stops the compressor if oil pressure drops below safe

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19400
