Cylinder Quantity:

1

Media For Which Designed:

Hydrocarbon fuels and oils

Pumping Element Type:

Piston

End Application:

60 ft antenna, reflector gp p/n 205906-04 nha; e/i afscn/cue an/fsq-15 (v)

Discharge Pressure:

10000.0 pounds per square inch gage

Pump Reciprocating Design:

Double acting

Operation Method:

Powered

Special Features:

Two speed pump design 1st stage gear pump 2nd stage piston pump; submitted name pump, hydraulic

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19400
