End Application:

An/alq-137 lb pa tps

Special Features:

Electric motor: totally enclosed, horsepower; 1/4, capacitor start; phase: single; voltage: 115/208-230 volts ac; rpm: 1725; cycles per second: 58-62; temp, ambient, max for continuous operation; current, amperes: 115 volts equals 5 amp, 208 volts equals 2.6 amp, 230 volts equals 2.5 amp, pump data: displacement: 0.209 cubic in per revolution; pressure, max: 500 ppsi; flow, theoretical 1.55 gal per min at 1,725 rpm and zero lbs psi; flow at 100 psi: 1.52 gpm; direction of rotation: clockwise

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
