| Stage Quantity:                         |
|---|
| 1                                       |
| Discharge Connection Quantity:          |
| 2                                       |
| Discharge Connection Type:              |
| Quick disconnect                        |
| Pump Quantity:                          |
| 1                                       |
| Maximum Discharge Flow Rate:            |
| 350.0 gallons per minute                |
| Discharge Pressure:                     |
| 125.0 pounds per square inch gage       |
| Total Head:                             |
| 275.000 feet                            |
| Suction Lift:                           |
| 8.000 feet                              |
| Operating Speed At Rated Capacity:      |
| 2400.0 revolutions per minute           |
| Pumping Element Operating Position:     |
| Horizontal                              |
| Centrifugal Pump Design:                |
| Mixed flow                              |
| Centrifugal Pump Impeller Quantity:     |
| 1                                       |
| Centrifugal Pump Impeller Suction Type: |
| Single                                  |
| Features Provided:                      |
| Self-priming                            |
| Shelf Life:                             |
| N/a                                     |
| Unit Of Measure:                        |
|   |
| Demilitarization:                       |
| No                                      |
| Fiig:                                   |
| A19400                                  |
