Current Type:

Ac

End Application:

Used aboard 87ft wpb coast guard vessels

Maximum Discharge Flow Rate:

40.0 gallons per minute

Operating Speed At Rated Capacity:

3500.0 revolutions per minute

Prime Mover Type:

Electric motor

Prime Mover Power Rating:

0.75 horsepower

Phase:

Three

Special Features:

Impeller diameter 4.38 inches; type-semi open; mounting-close coupled; rotation-clockwise viewing from motor side; type drive-close coupled; total dyn. Head-19 psi at 43 ft

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A19400
