Overall Width:

24.120 inches

Overall Diameter:

43.740 millimeters

End Application:

Centrifugal water pump

Product Name:

Seal group, basic

Special Features:

Inside diameter 18.98 in nom; consists of stainless steel sleeve, hex drive system, drive system four places, carborundum controlled porosity silicon carbide, and black sealant coating; hand installation not allowed

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A23900
