Discharge Connection Type:

Threaded internal

Media For Which Designed:

Hydrocarbon fuels and oils

End Application:

Vented petroleum storage tanks

Maximum Discharge Flow Rate:

15.0 gallons per minute

Suction Lift:

25.000 feet

Operating Speed At Rated Capacity:

1900.0 revolutions per minute

Pumping Element Operating Position:

Horizontal

Volume Control Type:

Rotary

Operation Method:

Manual

Pump Basic Material:

Aluminum

Product Name:

Electric gear pump

Special Features:

24 vdc; 15 ft of 12 gauge cord; 1 inch npt inlet; 0.750 inch npt outlet; 0.750 inch by 12 ft hose; 0.750 inch manual nozzle; 22 pounds ship weight

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19400
