Media For Which Designed:

Hydrocarbon fuels and oils and water, fresh

Pumping Element Type:

Piston

Maximum Discharge Flow Rate:

5.0 gallons per minute

Operating Speed At Rated Capacity:

1800.0 revolutions per minute

Reciprocating Stroke Type:

Fixed

Product Name:

5.0 gallon axial piston pump

Special Features:

Flange mounting; inline design series; fixed displacement; either direction rotation; 0.34 bar max. Case pressure

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19400
