Media For Which Designed:

Air

End Application:

Engine, diesel 12 12-645 f7b 2550 bhp 900 rpm

Pumping Element Operating Position:

Horizontal

Operation Method:

Manual

Product Name:

Pneumatic pump, test

Special Features:

1pressure/360 psi; vacuum/-11.6 psi; wetted materials; anodized aluminum, brass, nitrile and nylon; dimensions; length 8.66in., width 4.13in., depth 2.48in.; pneumatic test pump comes w/hose and 1/4 in. Npt female adapter, replacement seal kit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19400
