Body Outside Diameter:

8.460 inches

Body Inside Diameter:

6.000 inches

End Application:

Pump ctfg, wsd: nimitz class cvn

Special Features:

Material: duplex ss., thickness: 0.50 in., od step of 7.19 in., id step of 6.38

Material:

Stainless steel

Material Specification:

Astgm-a276 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19900
