End Application:

Rotary vane pump

Component Document Origin:

Industrial

Document Source:

25087

Package Model Number:

1p4e240g11bb110

Product Name:

Repair kit, pump

Special Features:

Repair kit consists: large retaining ring, nameplate, nameplate o-ring, front bearing, alignment pin, liner, vanes, vane spacer pins, rear bearing, seal assembly, small retaining rin (stainless steel), and ball bearing; model matrix breakdown: 1=rotary vane pump, p=repair kit, 4=brass, 1/2in. Npt ports, e=bolt on w/single flat drive, flowrate 240 gph, g=seal configuration ethylene propylene/type 21 seal, 1=clockwise rotation, 1=standard clearance, b=valve type and configuration, plastic, solid (ss hsg seat) , b=100-150 psi, default setting 130 psi, 110=pressure setting

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
