Prime Mover Quantity:

1

Current Type:

Ac

Media For Which Designed:

Water, salt

Pump Quantity:

1

End Application:

Seawater feed, maxim model 150-f-13.5-h2 evaporator

Operating Speed At Rated Capacity:

1800.0 revolutions per minute

Centrifugal Pump Impeller Quantity:

1

Prime Mover Type:

Electric motor

Prime Mover Power Rating:

20.0 horsepower

Product Name:

Sea water feed pump and motor

Voltage In Volts:

460.0

Phase:

Three

Special Features:

10.9 in. Dia. Impeller; 85 deg. F sea water service; vertical, shaft coupled, centrifugal pump; flanged, ansi b16.24, 150 lb. Connections; naval brass materials per astm b143/1a

Frequency In Hertz:

60.0

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A19400
