Overall Diameter:

139.0 millimeters

Product Name:

Inavy mech seal single

Special Features:

Speed limit 5000fpm 25m/sec max; nomenclature seal assembly, shaft; designed to fit ansi, din and api pumps; temp limits: to 300 degrees fahrenheit ethylene propylene, to 400 degrees fahrenheit flourocarbon/aflas; pressure limits: smsize 1.750 inch through 2.500 inch 600 psig, lg size 2.625 inch through 4.750 inch 600 psig; style: 180; dimension: 45m; seal faces: carbon with tungsten carbide; elastomer: ethylene propylene, spares kit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
