Media For Which Designed:

Hydraulic fluid

Pumping Element Type:

Piston

Pump Reciprocating Design:

Double acting

Operation Method:

Manual

Features Provided:

Integral relief valve

Special Features:

Operating pressure range 0 to 103 bar; oper. Temp. Range minus 40 deg. F. To 250 deg. F; handle extension furnished

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A19400
