Product Name:

Axial pistons pump

Special Features:

Pump breakdown: p24=pump displacement, 24.6 cu.In./rev; p=type, variable displacement, closed circuit; 2=shaft, keyed sae-mechanical shaft seal; r=clockwise rotation; 1=seals, nitril (buna n) ; e=design letter assigned by manufacturer; 9c=primary control, electro-hydraulic stroker w/adjustable max. Volume stops and automatic brake control; 4=secondary control, torque limiter and volume indicator; a=control location, primary control on port a side; 00=control and displacement feature, 4d01valve, 110v ac/60hz w/hirschmann connector; 0=internal pump, 2.81 cu.In./rev, standard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19400
