Mounting Type:

Flange

End Application:

3805-66-148-7692 interim high mobility excavating equipment

Drive Shaft Type:

Splined, straight external

Housing Material:

Iron, cast

Shaft Rotation Direction:

Clockwise and counterclockwise

Maximum Working Pressure Rating At Specificationified Temperature Range:

3500

Connection Design:

Flanged

Displacement Type:

Constant

Product Name:

Pgm 300 series motor

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T103-f
