End Application:

Pump, rcipg 3.5gpm

Product Name:

Pressure regulating unloader

Special Features:

Maintains set system pressure yet unloads to near zero in by-pass. Flow range: 0.5 to 6.0 gpm. Pressure range: 100 to 2000 psi. Maximum temperature: 160 degees fahrenheit. Inlet port (nptm): 3/8. Outlet port (nptm): 3/8. By-pass port (nptf): 3/8. Weight: 14 oz. Dimensions: in inches 3.000x1.000x4.25

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T103-d
