700.0 kilograms per square centimeter  Mounting Type: Tank  Portability: Portable  Operation Method: Power  Pump Drive Type: Electric motor  Hydraulic Fluid Reservoir:
Tank  Portability: Portable  Operation Method: Power  Pump Drive Type: Electric motor
Portability: Portable Operation Method: Power Pump Drive Type: Electric motor
Portable  Operation Method:  Power  Pump Drive Type:  Electric motor
Operation Method: Power Pump Drive Type: Electric motor
Power  Pump Drive Type:  Electric motor
Pump Drive Type: Electric motor
Electric motor
Hydraulic Fluid Reservoir:
Trydraulic Fluid Reservoir.
Included
Reservoir Capacity:
8.0 liters
Accumulator:
Not included
Outlet Quantity:
1
Special Features:
Height 14.69 inches, width 12.17 inches, length 14.49 inches, weight 39.98 lbs
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T103-n
