End Application:

Nha: 1.25 x 1 - 7 hot water pump

Product Name:

Pump, hot water re-circulating

Special Features:

Pump characteristics: 1.25 x 1 - 7 close coupled horizontal pump; capaci type 10 gpm; total rated head 15 psig; submergence flooded; liquid pumped hot potable water; specific gravi type 1.0; suction temperature 40 degrees f - 140 degrees f; hydrostatic test pressure 50 psig; 1 in. Discharge ansi b16.5 class 150 flange, 1.25 in. Suction ansi b16.5 class 150 flange; motor characteristics: 1 hp horizontal continuous du type 3 phase 60 hertz 440 volts ac constant speed motor; speed (sych) 1800 rpm; squirrel cage windings; permissible ambient temperature 50 degrees c; enclosure tenv
