End Application:

5 x 4 - 7 chilled water pump

Product Name:

Pump, re-circulating chilled water

Special Features:

Pump characteristics: 5 x 4 - 7 close coupled horizontal pump; capaci type 520 gpm; total rated head 139 ft.; submergence flooded; liquid pumped chilled water; specific gravi type 1.0; suction temperature 45 degrees f; hydrostatic test pressure 125 psig; 4 in. Discharge ansi b16.5 class 150 flange, 5 in. Suction ansi b16.5 class 150 flange; motor characteristics: 40 hp horizontal continuous du type 3 phase 60 hertz 440 volt ac constant speed motor; speed (sych) 3600 rpm; speed (full load) 3560; squirrel cage windings; permissible ambient temperature 50 degrees c; enclosure tefc
