Product Name:

Turbo charger, hydraulic

Special Features:

Temperature: 32 degrees f - 95 degrees f; feed flow: 165gpm/seawater; feed outlet: 867 psig; feed inlet: 563 psig; turbo boost: 304 psig; turbine flow: 130 gpm; turbine inlet pressure: 780 psig; turbine outlet: 25 psig; casing: super austenitic stainless steel; rotor: super austenitic stainless steel; feed piping: 1 1/2in. Victaulic style 77; turbine piping: 1 1/2in. Victaulic style 77; tubing fittings for thrust balance line and plugs to be straight thread o-ring type

Material:

Stainless steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23900
