Mounting Type:

Frame

Media For Which Designed:

Liquid and freon and hydrocarbon fuels and oils and refrigerants and water, fresh and water, waste

Maximum Discharge Flow Rate:

15.0 gallons per minute

Operating Speed At Rated Capacity:

3550.0 revolutions per minute

Pumping Element Operating Position:

Horizontal

Centrifugal Pump Impeller Quantity:

36

Drive Shaft Type:

Plain round

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A19400
